1 Brainstorming	1
2 Selected Points	1

1 Brainstorming

- Adopting agile methodologies for a large, mature organization
- Unethical behavior in the consulting industry
- Working abroad to develop appreciation for other cultures directly
- "Buying" consulting engagements
- Practicing ethical consulting in an industry where it is common to buy engagements
- Domain background in software development industry has become less important as Business Analysts have begun to fill that need
- Always learning the newest technologies and methods in the consulting industry

2 Selected Points

- Practicing ethical consulting in an industry where it is common to buy engagements
- Always learning the newest technologies and methods in the consulting industry
- Domain background in software development industry has become less important as Business Analysts have begun to fill that need
